

Dear Friends,

Here is a link to a website that shows repeat photography of the Pacific Northwest of Canada and the U.S.A..

The same locations are photographed in different times, sometimes over a century apart and the photos are superimposed on each other. Click on Galleries to see B.C., California, Idaho etc.

I was especially taken by this view of the cemetery in Lytton B.C.

An excellent example of a modern technology showing us a Dharma teaching by accident, in this case; the Truth of Impermanence.

gassho,
